

**CHILD DEVELOPMENT & CHILD STUDY**  
EARLY CHILDHOOD & GRADES

Course and Eurythmy led by: Mary Ruud

Deepen your understanding of Rudolf Steiner's view of child development, study the twelve senses and apply this understanding to the stages of child development from early movement to sophisticated operations in brain integration.

**REPRESENTING LIFE: ARTISTIC WORK III**  
EARLY CHILDHOOD & GRADES

Course led by: Michael Imes & guest teachers

Experience plant dying of yarn and fabric, doll-making, colored pencil drawing and shading techniques, clay modeling and watercolor veil painting. Hands-on activities will support both Early Childhood and Grades coursework.

**PREPARING CHILDREN FOR FIRST GRADE**  
EARLY CHILDHOOD

Course led by: Pam Harsch

Topics include nurturing the 12 senses, especially the 4 Will senses; nutrition, warmth and sleep; the 7 life processes, and child observation and study. Artistic work includes Circle Time movement, painting, and a marionette play.

**TEACHING SCIENCE IN THE WALDORF SCHOOL**  
GRADES

Course led by: Michael Imes

Understand the Waldorf approach to teaching science and its emphasis on careful observation of phenomena. Participate in experiments, objective observation, recall and documentation. Experience the science curriculum in grades 1-8.
