

Tie Snake Toy for Kindermarket

Materials Needed:

- Tie – old used tie or one from the thrift store (can be provided by the school too)
- Stuffing – poly-fil craft stuffing
- Pencil, or long stick of some sort
- Hot glue gun
- Red felt
- 2 Googly eyes

Instructions:

- Brake off a small chunk of stuffing and place it down the hole of one of the sides of the tie. Then using your pencil or long stick, push down the stuffing as far as you can;
- Try to get at least half way down, then do the same for the other opening of the tie. Then fill and repeat until your whole tie is stuffed;
- Once your tie is all stuffed, then you'll want to hot glue each end closed;
- Cut out a tongue from the red felt (“fork” shape tongue). Now hot glue the bottom end to the inside of the snakes mouth, or the bigger end of the tie;
- Hot glue 2 googly eyes to the top of the snake, or the top of the big area of the tie.
- Woo-Hoo! Be proud of yourself! You just made a snake!
- See pictures for guidance and inspiration.

Thank you for volunteering!
